

## ORTHOGAITER® Stock Arm & Leg Gaiters

The OrthoGaiter® selection of stock gaiters have been developed by a multidisciplinary team of Healthcare Professionals. This stock range of arm and leg immobilising gaiters offers; simplified sizing options covering XXS to XL, repeatable fabric colours/patterns and all variants are available next working day.

### Features:

The stock gaiters are simple to don and doff utilising an adjustable wraparound design with full circumferential hook and loop fastening straps which can be trimmed if required. They are fabricated from a breathable cotton material and are designed to be worn against the skin or over clothing.

The OrthoGaiter® features three removable stays, the medial and lateral are plastic so that they can flex to the contours of the limb, whilst a posterior metal stay offers more rigid reinforcement and support to help maintain the arm or leg in extension for rehabilitation purposes. Provided all stays are removed the gaiters can be machine washed at low temperatures.

Available in six repeatable external fabrics as illustrated and finished with a grey padded velfoam lining which prevents discolouration and offers enhanced comfort.

The OrthoGaiter® includes two units and each gaiter can be worn on either left or right limb if not simultaneously.

### Indications For Use:

Any condition where maintenance of knee or elbow extension is required. It can be used for control of range of motion in contracture management, post-surgery, joint support in rehab sessions, self-harming and can be worn daytime or overnight.

### Fabric Styles Available:

| Size     | Length (cm) | Top Circ (cm) | Bottom Circ (cm) | Product Code |          |          |          |          |          | Fitting Guide |     |
|----------|-------------|---------------|------------------|--------------|----------|----------|----------|----------|----------|---------------|-----|
|          |             |               |                  | PINK         | BLUE     | DENIM    | ANIMAL   | CARS     | HEARTS   | ARM           | LEG |
